The Civil Engineering Database

(CEDB) is designed to provide free, easy bibliographic access to all ASCE publications. The database covers ASCE documents published since 1970. It provides access to all the journals, conference proceedings, books, standards, manuals, magazines, and newspapers. The index terms below were assigned to papers published in this journal during 2003 from a CEDB Subject heading list. The CEDB and Subject heading list can be accessed on the Web at www.pubs.asce.org/cedbsrch.html.
